Wenxi Wang

Assistant Professor
Department of Computer Science
The University of Virginia

The University of Virginia
Rice Hall, Room 101, Charlottesville, VA 22903
 +1 650-505-8786
 wenxiw@virginia.edu
 wenxiwang.github.io

Research Interests

Fusion of Software Engineering and Security, Formal Methods, and Machine Learning, with an emphasis on enhancing the efficiency and robustness of automated logical reasoning tools, and improving the security and reliability of software systems.

Employment

2024–Present   **Assistant Professor**
The University of Virginia (UVA), Department of Computer Science

Education

2018–2024   **Doctor of Philosophy**, *The University of Texas at Austin (UT Austin)*
Research Areas: Software Engineering, Formal Methods, Machine Learning
Advisor: Sarfraz Khurshid

2017   **Master of Philosophy**, *The University of Melbourne (UoM)*
Research Areas: Automated Logical Reasoning
Thesis: A Bit-Vector Solver Based on Word-Level Propagation [PDF]
Advisor: Peter J. Stuckey and Harald Sondergaard

2014   **Bachelor of Engineering**, *Dalian University of Technology (DUT)*
Major: Computer Science and Technology
Advisor: Yanming Shen

Publications

Published *15 refereed conference papers and 2 refereed journal papers*. My papers were accepted at top-tier venues in software engineering (ICSE, ESEC/FSE, ASE, ESEC/FSEDemo), formal methods (TACAS, SAT), programming languages (PLDI), machine learning (ICLR) and automated reasoning (CPAIOR, JAR)

[1]   **Wenxi Wang**, Yang Hu, Mohit Tiwari, Sarfraz Khurshid, Kenneth L. McMillan, Risto Miikkulainen. *"NeuroBack: Improving CDCL SAT Solving using Graph Neural Networks."* In *The 12th International Conference on Learning Representations (ICLR 2024).* [PDF]

Patents

[20] Amit Goel, Dejan Jovanovic, Neha Rungta, **Wenxi Wang**. (alphabetical order) *"Optimizing SMT problem encoding for application-specific workloads with machine learning."* *U.S. Patent Application, Pending*, 2023.

Internship Experiences

5/2022–8/2022 **Applied Scientist Intern**, *Automated Reasoning Group*, Amazon Web Services
Host: Dejan Jovanovic
Project: Optimizing SMT problem encoding for application-specific workloads with Graph Neural Networks

5/2019–8/2019 **Research Intern**, *Software Quality & Security Lab*, Fujitsu Research of America
Host: Hiroaki Yoshida
Project: Automated program repairs for static analysis violations

9/2017–8/2018 **Research Intern**, *Department of Computing*, Hong Kong Polytechnic University
Host: Max Yu Pei
Project: Mutation-based fault localization with minimal unsatisfiable core analysis

Scholarships and Awards

2023–2024 George J. Heuer, Jr. Ph.D. Endowed Graduate Fellowship, UT Austin

2022 MIT EECS Rising Stars

2014–2016 Melbourne International Research Scholarship, UoM

2014–2016 Melbourne International Fee Remission Scholarship, UoM

2014 Province Excellent Graduates Award, Liaoning Province, China (top 1%)

2012–2013 China National Scholarship, Ministry of Education of China (top 1%)

2010–2014 Outstanding Student Awards, DUT (top 3%)

Teaching Experiences

Lecturer:

Fall 2024 Machine Learning for Software Reliability (CS6501), graduate Level, UVA

---

[2]* denotes that these authors contribute equally to the paper.

	Teaching Assistant:
Fall 2022	Software Testing (ECE 360T), Undergraduate Level, UT Austin
Spring 2020	Software Testing (ECE 382C), Graduate Level, UT Austin
Fall 2019	Software Design & Implementation II (ECE 422C), Graduate Level, UT Austin
Spring 2019	Algorithmic Foundations for Software Systems (ECE 382V), Graduate Level, UT Austin
Fall 2016	Data Structure & Algorithms (COMP20003), Undergraduate Level, UoM
Fall 2016	Engineering Computation (COMP20005), Undergraduate Level, UoM
	Guest Lecture:
Fall 2024	Computer Science Perspectives (CS 6190), Graduate Level, UVA
	Content: Introduction to improving software reliability
Fall 2023	Software Testing (ECE 382V), Graduate Level, UT Austin
	Content: Introduction to automated vulnerability repair in cloud access control
Fall 2023	Verification & Validation of Software (ECE 382C), Graduate Level, UT Austin
	Content: Introduction to model counting and enumeration with Alloy analyzer
Spring 2019	Algorithmic Foundations for Software Systems (ECE 382V), Graduate Level, UT Austin
	Content: Java coding demonstration of classic data structures

Mentoring Experiences

Rotation	Rishov Paul (2024 Fall Semester, UVA)
Master	Chaitanya Rajendra Shahane (2024–Present, UVA)
Undergraduate	Carter Opperman (2024–Present, UVA)
Undergraduate	Jamie Hazel Fulford (2024–Present, UVA)
Internship	Tianyi Huang (2024–Present, University of Illinois Urbana-Champaign)
Internship	Jiate Li (2024–Present, Nanyang Technological University)
Internship	Zhonghan Wang (2024–Present, Chinese Academy of Sciences)
Master	Sicong Che (2022–Present, UT Austin, co-authored paper [19])
Master	Jiayi Yang (2019–2024, UT Austin, co-authored papers [8, 19])
Ph.D. Student	Muhammad Usman (2019–2021, UT Austin, co-authored papers [9, 10, 11, 12, 13])

Committee Services

	Program Committee (PC):
ICSE 2026	PC member in International Conference on Software Engineering
CAV 2025	PC member in International Conference on Computer Aided Verification
OOPSLA 2025	PC member in Conference on Object-Oriented Programming Systems, Languages, and Applications
LLM4Code 2025 Workshop	PC member in International Workshop on Large Language Models for Code
TOSEM	Reviewer in ACM Transactions on Software Engineering and Methodology
ASE 2024	Session chair of "LLM for SE 2" and "SE for AI 2" sessions, and PC member in IEEE/ACM International Conference on Automated Software Engineering
ICML 2024	PC member in International Conference on Machine Learning

ICLR 2024	PC member in International Conference on Learning Representations
ECOOP 2023	Session chair of the "Verification and Testing" session and extended PC member in European Conference on Object-Oriented Programming
NeurIPS 2023	PC member in Conference on Neural Information Processing Systems
ICML 2023	PC member in International Conference on Machine Learning
NeurIPS 2022	PC member in Conference on Neural Information Processing Systems

Artifact Evaluation Committee (AEC):

PLDI 2023	AEC member in Conference on Programming Language Design and Implementation
ISSTA 2023	AEC member in International Symposium on Software Testing and Analysis
ECOOP 2023	AEC member in European Conference on Object-Oriented Programming
USENIX SEC 2023	AEC member in USENIX Security Symposium
ISSTA 2022	AEC member in International Symposium on Software Testing and Analysis
PLDI 2022	AEC member in Conference on Programming Language Design and Implementation
PLDI 2021	AEC member in Conference on Programming Language Design and Implementation

Professional Services

Web Committee Member	UVA, Department of Computer Science
External Reviewer	TACAS 2022, ESEC/FSE 2021, ICST 2020, ASE 2020, ISSRE 2020, and ICSE 2019.
Seminar Organizer	Co-organize the Joint UT-Cornell Software Engineering Seminar 2023–2024.
Graduate Mentor	Mentored six new graduate students in ECE Partner Program at UT Austin, Fall 2023.

Presentations

Paper Presentation:

2023	Fixing Privilege Escalations in Cloud Access Control with MaxSAT and Graph Neural Networks [2], at the Joint UT-Cornell Software Engineering Seminar
2022	SymMC: Approximate Model Enumeration and Counting Using Symmetry Information for Alloy Specifications [4], at ESEC/FSE 2022
2021	Initial Results on Counting Test Orders for Order-Dependent Flaky Tests using Alloy [6], at ICTSS 2021
2020	A Study of Symmetry Breaking Predicates and Model Counting [10], at TACAS 2020
2019	Incremental Analysis of Evolving Alloy Models [14], at TACAS 2019
2019	Learning to Optimize the Alloy Analyzer [15], at ICST 2019
2016	A Bit-Vector Solver with Word-Level Propagation [17], at CPAIOR 2016

Poster Presentation:

2022	Improving Constraint Solving and Model Counting, at EECS Rising Stars 2022

Industrial Presentation:

2022	Improving SMT Solving with Graph Neural Networks, at Amazon Web Services
2019	Automated program repairs for static analysis violations, at Fujitsu Research of America
